

## Kurzweil Read the Web Extension

The **Kurzweil Read the Web Extension (for Google Chrome and Mozilla Firefox)** allows users to have web content read aloud, including many web-based educational platforms.

To add the Chrome Extension, go to the [Google Chrome Web Store](https://chrome.google.com/webstore) and search “K3000” or “Kurzweil.” (Or go to <https://www.kurzweiledu.com/products/software-updates.html> and under the OTHER TOOLS heading, click the link for **Chrome Extension for Read the Web** or the link for **Firefox Extension for Read the Web** and follow instructions.

Select . Follow instructions presented for installation.

The Read the Web Icon will appear in Chrome (or Firefox). The icon is displayed in one of three states:

-  (In color with a red line through it.) Installed, but not available on that page. To use, navigate to another website or open another tab in your browser.
-  (Icon in black and white) Installed, but turned off. Click on the icon and login using your Kurzweil 3000 login credentials. If your school or district has implemented Google Single Sign On with Kurzweil 3000, you can login using your Google credentials.
-  (In color.) Available and enabled. You're logged in!

To **LOGIN** to Read the Web, click on the Kurzweil icon in the Chrome (or Firefox) toolbar.

Enter your Kurzweil3000 login credentials. **IF** your school or district has implemented Google Single Sign On with Kurzweil 3000, you can enter your Google login credentials.

To Read, place your cursor on the page where you wish to start reading, and then select the Read button.

The **Read the Web Toolbar** has 9 buttons (plus Open PDF button when a web-based pdf is opened. The PDF button is only available in the Chrome Browser.)

1. **Kurzweil** button: select to open Kurzweil3000.com
2. **Options** button: select to open the options menu. Allows users to customize the reading voice, rate, mode, unit, as well as change the position of the RTW toolbar.
3. **Double Arrow Left**: select to move your cursor back one reading unit
4. **Arrow/Read** button: Read/Pause toggle; click to turn reading on; click to turn off
5. **Double Arrow Forward**: select to move your cursor forward one reading unit
6. **Audible/Silent Reading** toggle: select to mute sound; select again to hear sound
7. **Dictionary** button: select to open the Dictionary dialogue. Place your cursor in front of the word that you wish to look up, then select the dictionary. Select the desired dictionary or the thesaurus using the dropdown menu.
8. **Translate** button: select to open the translate dialogue. To Translate text: first select the text you wish to translate, select "Translation," then select the language.
9. **Screenshot Reader** button: Drag from upper left hand corner to bottom right corner of text that you wish to select. This is helpful when you have text that you wish to "capture" and/or you have text that the Read the Web extension won't read. Once the text is select, it will open in Kurzweil3000.com and will be saved in the Recently Opened Local Files folder. The document will be named "imagereader\_"month"\_"date". For example, imagereader\_10\_12 is a screenshot captured on October 12.
10. **(Chrome Browser Only) Open PDF Reader** button: This button only appears when a web-based PDF is open. Clicking on the button will open the pdf in Kurzweil3000.com.

Note: Once the Chrome Extension has been added, users can also activate it from Kurzweil 3000.com by clicking the **Enable Read the Web** button in the lower left hand corner of the Kurzweil3000.com window.
