

Regional Digital Learning Instructional Coordinator

Digital Learning Instructional Coaches will be instrumental in assisting districts, schools, and teachers adapt to the challenges of digital learning and improve student outcomes through the use of educational technology. Effective digital learning requires deployment and management of technology, as well as implementation of high-quality digital instructional practices. The digital instruction portion of the MDE's Digital Learning program is comprised of three inter-dependent parts: professional development for districts, schools, and teachers; high-quality digital curriculum; and Digital Learning Instructional Coaches, who support the implementation of the professional development and curriculum to improve digital instructional practices.

The goals of the **Digital Learning Instructional Coaches** program are as follows:

- Develop positive, open, professional, and collaborative working relationships with district and school leaders, technology staff, instructional technology coaches, teachers, and support staff.
- Provide coaching to support, grow, implement, and refine digital learning and instructional practices, including:
 - Effective use and implementation of technology, including devices, learning management systems, software and other web-based tools;
 - Planning, developing, and delivering high-quality digital instruction aligned to the Mississippi College- and Career-Readiness Standards;
 - Implementing best practices in digital learning and instructional practices; and
 - Evaluating digital learning and instructional practices.
- Effectively identify and prioritize the digital learning and instructional needs of district and school leaders, technology staff, instructional technology coaches, teachers, and support staff.
- Recommend and/or provide rigorous and engaging training, support, and professional development to districts and schools to support identified digital learning needs.
- Collaborate with other coaches and MDE staff to develop coaching and professional development resources which support the continued implementation and improvement of digital learning.

- Collaborate with other MDE staff to share and align resources and strategies; determine the effectiveness of the digital learning professional development and coaching services offered; and adjust resources and services as needed.

SCOPE OF WORK

Regional Digital Learning Coordinators will provide supervision and support to assigned Digital Learning Instructional Coaches. It is anticipated that each Regional Digital Learning Instructional Coordinator will supervise four to six coaches (or full-time equivalents). Additionally, Regional Digital Learning Instructional Coordinators will provide daily technical support and coaching to district and school personnel in their capacity to support integration and implementation of digital learning and instructional practices.

This position is responsible for duties at the school, district, regional, and state levels. The responsibilities include:

School Level

1. Assist teachers in planning effective digital lessons as they:
 - Identify and incorporate appropriate educational technology tools, including devices, learning management systems, software, and other web-based tools, to improve student outcomes;
 - Identify or create high-quality digital content aligned to grade-appropriate Mississippi College- and Career-Readiness Standards; and
 - Utilize digital assessment tools to inform instructional decisions.
2. Assist teachers in delivering effective digital instruction, including:
 - Implementation of tools, content, and assessment described above;
 - Ensuring student engagement through both instructional delivery and assessments;
 - Effective classroom management strategies for both synchronous and asynchronous instruction;
 - Incorporating digital accessibility tools to address the needs of all learners; and
 - Utilizing best practices in digital instruction.
3. Assist teachers and administrators in assessing the effectiveness digital instruction and providing guidance on continuous improvement by:
 - Conferencing with individual teachers, lead teachers, or other support staff and provide specific goals and plans for improving digital learning

- and instructional practices;
 - Providing clear, practical, timely, and candid written and oral feedback to school-based coaches and to teachers about their digital learning and instructional practices;
 - Meeting regularly with administrators, teachers, and other support staff to review data, including engagement and effectiveness data provided by BrightBytes, and make recommendations for adjustments in digital learning and instructional practices;
 - Assisting teachers and administrators in reviewing assessment data; and
 - Assisting administrators in identifying, supporting, and evaluating digital learning practices.
4. Develop positive, open, professional, and collaborative working relationships with district and school leaders, technology staff, instructional technology coaches, teachers, and support staff.
 5. Identify and prioritize the needs of assigned administrators, teachers, and other support staff, including technical skills (i.e., operation of devices, use of software and learning management system) and digital instructional practices.
 6. Recommend existing training or resources to support identified needs, and/or schedule, organize, design, and conduct the identified professional development needed.
 7. Obtain feedback and evaluations from administrators, teachers, and other support staff on the effectiveness of professional development and coaching services offered and adjust services as needed.
 8. Maintain an organized system for documenting coaching services.
 9. Provide both virtual and in-person support to the Digital Learning Instructional Coaches, schools, districts, or MDE staff as described in this Scope of Work. **NOTE:** Due to current state and local COVID guidelines and related travel restrictions, the MDE expects coaching support to be provided through a hybrid model of virtual and in-person supports at the beginning of this project. As COVID guidelines and related travel restrictions are relaxed, in-person coaching may become the preferred method of coaching. In-person coaching will require travel to schools, possibly as often as daily.

Coaches will be assigned districts/schools based on the coach's technology skills and expertise and the needs of participating districts/schools. Coaches may be reassigned at any time based on a change in district/school needs.

District Level

1. Support the development of district Digital Learning Plans to ensure sustainability of

hybrid and virtual learning opportunities.

2. Provide feedback to the MDE regarding districts' needs to ensure the successful implementation of their Digital Learning Plans.
3. Assist district stakeholders in identifying, supporting, and evaluating digital learning practices.

Regional Level

1. Ensure assigned coaches have the training and supports needed to be successful in their assigned districts/schools.
2. Assign coaches to districts/schools based on region, coaches' technology skills and expertise, and the needs of participating districts/schools; and assist coaches with scheduling, logistics, and communication in order to meet the needs of assigned districts/schools.
3. Assess needs of participating districts/schools and reassign coaches as needed.
4. Communicate expectations for outcomes and goals of the Digital Learning Instructional Coach program to assigned coaches and the districts/schools they support.
5. Support assigned Digital Learning Instructional Coaches in effective implementation of the Digital Learning Instructional Coach program.
6. Communicate with teachers, district staff, and school leaders to ensure the assigned coaches are meeting the expectations and outcomes of the Digital Learning Instructional Coach program.
7. Collect and analyze feedback from teachers, district staff, and school leaders regarding the effectiveness of assigned Digital Learning Instructional Coaches and the coaching, training, and instructional supports offered by the Digital Learning Instructional Coaches.
8. Evaluate the effectiveness of assigned Digital Learning Instructional Coaches and provide feedback, training, and supports as needed for continuous improvement.
9. Assist regional stakeholders in identifying, supporting, and evaluating digital learning practices.
10. Collaborate with other Regional Digital Learning Instructional Coordinators and Digital Learning Instructional Coaches to share resources and strategies; determine the effectiveness of professional development and coaching services offered; and adjust resources and services as needed.
11. Provide ongoing training and support for school-based educators within and across regions.

State Level

1. Share effectiveness of the Digital Learning Instructional Coach program with the State Digital Learning Instructional Coordinator and the MDE.
2. Share evaluations of the effectiveness of assigned coaches and plans for training and supports needed for continuous improvement with the State Digital Learning Instructional Coordinator and the MDE.
3. Analyze all data and feedback, including engagement and effectiveness data provided by Bright Bytes; and feedback from schools and districts regarding the effectiveness of the coaching, training, and instructional supports offered by the Digital Learning Instructional Coach Program.
4. Share evaluation results, data analysis, and identified needs with State Digital Learning Coordinator; and collaborate to create a cycle of continuous improvement to support the success of the Digital Learning Instructional Coach program and to inform necessary training, supports, and professional development offerings.
5. Collaborate and develop digital learning instructional coaching resources to share with districts to support the continued implementation and improvement of digital learning.
6. Collaborate with MDE staff to develop professional development that supports the continued implementation and improvement of digital learning.
7. Collaborate with other MDE staff to share and align resources and strategies; determine the effectiveness of the digital learning professional development and coaching services offered; and adjust resources and services as needed.
8. Share identified needs of teachers, schools, and districts with the MDE to inform future training, supports, and professional development offerings.
9. Communicate a consistent message as established by the Mississippi Department of Education in support of the Mississippi Connects plan.

ELIGIBILITY CRITERIA

The selected individual(s) for the **Regional Digital Learning Instructional Coordinator** must meet the following criteria:

EDUCATION AND EXPERIENCE

- Master's Degree in Education, Instructional Technology, or related field, with 3 years documented successful PreK-12 teaching experience

-OR-

Bachelor's Degree with 5 years documented successful PreK-12 teaching experience
